Andrew,

Great. Below are the agreed-upon search terms (renumbered and with the /25 to /15 swap).

I also wanted to confirm the date range for the email review and production. I've seen references to May 2011 and December 2011. I assume that we will use May 21, 2011 date as the start date to capture Wit-related materials. Please confirm.

Finally, attached is an org chart for UBH's "psychologist peer reviewers". As we discussed, these are the doctorate level (Ph.D or Psy.D) employees who adjudicate outpatient or intensive outpatient claims when a non-physician is the provider and there is no state law requirement that a physician reviews the claim.

Sincerely,
Nate

Nate,

The list below looks fine (there was a wildcard missing from 9(A) that I put in), and I am fine with the /15 swap.

Thanks,

Andrew

Andrew,

I have information about two items we discussed.

- A. "/s" is not a recognized connector for the search function that UBH will be using. We propose substituting /15 for /s. You mentioned yesterday that /15 seemed like a reasonable replacement. Are Plaintiffs fine with that? Also, are you amenable to changing /25 to /15?
